

LACHEN ACCOMODATIONS

- Modern Residency do not have any kind of accommodation in Lachen area and as such we are tied up the local property in Lachen namely Sinolchu, Tsholhamu and there are various other accommodations with 2 or 3 to 4 rooms in each property.
- Which further means that almost all the local residence are converted as guest house, lodge and basic hotels and are with basic infrastructure and unplanned. This accommodation is very poor in the area and we have made our hotel selection on the basis of SERVICES provided.
- Due to lack of proper infrastructure and communication facilities this accommodation are normally not booked in advance and it is booked on verbal basis only and it is quite obvious that the guest on his arrival may feel that the kind, way of bookings will seem to him that it is on spot. Kindly be aware of the same. As this is a normal procedure there in this area.
- As the area is blessed with Natural Beauty and it is an up coming tourist destinations it is quite obvious that the constructions of the hotels are unplanned. The accommodation provided at Lachen will be very basic and has very basis facilities compare to Lachung. This accommodation does not have a sign board and the name of the accommodation changes very frequently so we will not be in a position to state a fixed name and as such the voucher will have name like log huts etc as such this name of no relation with the existing property in Lachen.
- The Bathrooms are not having any showers & Geysers, so warm water will be provided in buckets, by the Hotelier.
- The rooms could be common bath also at times.
- The food prepared will be fresh, by the local trained Sherpas's & not by Hotel chef.
- The rooms are not having any Heaters due to electricity problem, so the hotelier provide Hot water pad in the bed.
